BASA CORPORATE TRAINING SERVICES

Business Academy Southern Africa (BASA), the corporate training arm of Excel Business Institute Pvt Ltd has since its establishment in June 2015, played a leading role in meeting the changing needs of many business organisations. We provide a wide range of well-designed programmes specially catered for business organisations with different training needs.

OUR COMMITMENT

BASA is committed to developing high quality programmes with accredited trainers, providing training solutions that are at pace with the dynamic changes in the business world. As an independent training authority, BASA is able to provide impartial assessment and customised training programmes to meet our client's training needs.

OUR EXPERTISE

Covering a wide variety of specialist subjects, the BASA experience promises a superior training product with renowned industry experts, leaders in their field.

Our expertise covers:

- Business Management
- Communication
- Creativity and Innovation
- Emotional Intelligence
- Financial Management
- HR Development
- HR Management
- Marketing
- Personal Effectiveness and Productivity
- Risk Management

OUR TRAINERS

All of our Trainers offer our high level of service therefore are subject to regular peer assessments and interview prior to joining our Institute. They must all be qualified and have relevant experience to an agreed level and are subjected to continual audit and evaluation. Strict internal assessment is implemented as an integral part of our quality control mechanism.

CUSTOMISED TRAINING SOLUTIONS

Understanding your industry, adding value to your business

We focus on providing clients with solutions beyond the model of conventional training. By identifying the skills, knowledge and behaviours needed for optimum performance, we assemble our training solutions completely around your desired outcomes. Our proven framework for analysing the business and training need allows us to get to the core of your development requirements. All of our training solutions have a profound impact when implemented in practice.

Our team of accredited, highly-experienced and inspiring trainers, facilitators and coaches possess a potent combination of management experience, practitioner knowledge and industry know-how in their respective fields of profession, to deliver active learning programmes to serve training needs across all industries.

OUR APPROACH

Step 1: Define Competencies

During this phase, we work with you to identify your organisation's key business issues. The needs analysis will help identify in which context to create a highly synergistic solution.

Step 2: Skills Gap Analysis

Together with our expert, we will identify skills gap utilising a range of assessment tools, to identify the critical and noncritical skills that are needed to carry out a role effectively.

Step 3: Developing a Customised Solution

The programmes we develop will have a measurable and noticeable impact on operational performance and increase their effectiveness in areas identified by you.

Step 4: Implementation and Delivery

Your customised course will ensure that every aspect of the programme is reality based and relevant to your organisation. The format of your course is a vital component and may range from case studies, syndicate exercise groups, discussions and/ or role plays to ensure that the course is stimulating on every level.

Step 5: Post Training Support

Studies show that a vast percentage of new skills are lost if they are not reinforced once back in the workplace. We offer continuous support, coaching and feedback to guarantee success. Follow-up sessions are available to focus on continuing improvement and ensure that the skills of the participant are consistently enhanced.

Our customised solutions include:

- **Customised Training:** Adapted to suit your business environment and objectives
- **Blended Solutions:** Training is preceded by an onsite needs-analysis and multiple interviews
- **1-on-1 Coaching:** Focused and impactful interventions for senior managers
- **Consultancy:** An analysis of existing business problems and the development of strategies for improved performance
